OSAMA MADIEN HOUSE
WE SPECIALIZED

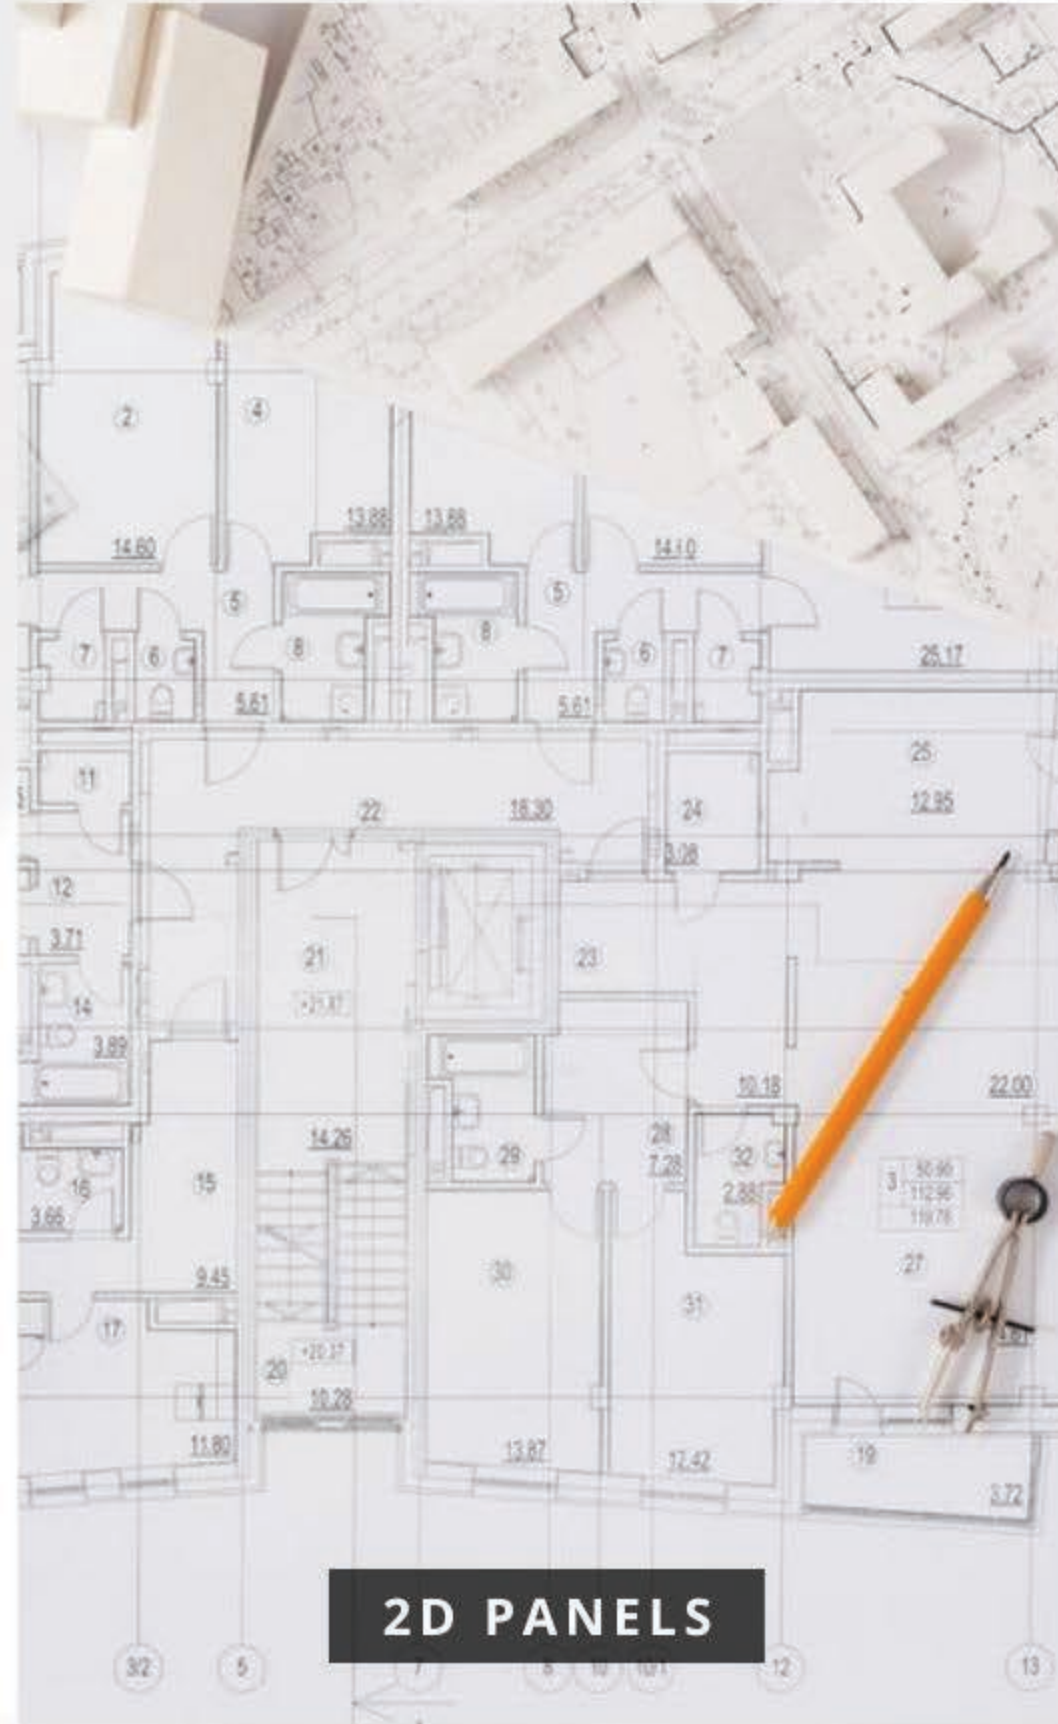

INTERIOR DESIGN

It is the first step in building the house
This step begins according to the following stages.

Inspection of the project, whether it is a plot of land or an existing building, will be completed.

Processing the drawings that have been raised in the project and adding proposals and modifications to them to be submitted to the customer and choose the best proposal in accordance with his needs.

The second step is to determine the 3D design mode whether it is classic or modern and the nature of colors and the style of lighting preferred by the customer and can be adjusted this stage until the customer settles on the best proposal
Step 3 Executive Drawings of the project which illustrates all the details in the designs and turn them into reality in your own home.

OSAMA MADIEN HOUSE

WE SPECIALIZED

EXTERIOR DESIGN

It's the first step in building the house. This process begins in the following stages.

Inspection of the project, whether it is a plot of land or an existing building, will be completed.

Processing the drawings that have been uploaded in the project and adding proposals and modifications to them to be submitted to the customer and choose the best proposal in accordance with the surrounding environment.

The second step is to determine the 3D design mode whether it is classic or modern and the nature of colors and the style of lighting preferred by the customer and can be adjusted this stage until the customer settles on the best proposal

The third step is the executive drawings of the project, which show all the details in the designs.

WE SPECIALIZED

REALITY FINISHING

This phase comes after the completion of all the designs approved by the customer and based on the description described in the executive drawings

This phase depends heavily on the technicians and engineers specialized for each item so that the works are carried out in high quality

Relying on the best materials belonging to approved brands in the international and local market in addition to reviewing and delivering the customer each item completed until the completion of the project in full according to the approved specifications

WE SPECIALIZED

LANDSCAPING

This phase comes after the completion of a large part of the internal work based on the description described in the executive drawings

For the planting, the sedimentation, the irrigation network and the concrete works of the swimming pool, this stage depends heavily on the technicians and engineers specialized for each item so that the works are carried out in high quality Relying on the best materials belonging to approved brands in the international and local market in addition to reviewing and delivering the customer each item completed until the completion of the project in full according to the approved specifications

OUR SERVICES

FURNITURE

The furniture of the house is a work that has a lot of details and whenever it is implemented with all the details in the design for colors, dimensions, and materials the result is in the end beautiful and wonderful

That's why our own factory was built so that we stand at every stage and achieve the highest level in the implementation of furniture for bedrooms including dressing, salon, living rooms and kitchens in all its details related to specifications, mechanics, volume of storage, ease of use, movement and process
